MATH

TASK1: In Mathematics, especially in geometry and its applications, an object is said to have symmetry if it can be divided into two identical halves. Symmetry exists when something that has matching parts facing each other or around an axis. Symmetry is a fundamental part of geometry, nature, and shapes. It creates patterns that help us organize our world conceptually.

Symmetry creates balance, harmony, and order in design which has a similar impact on the mind. So, children let's put on your thinking caps & do the following:

- 1) Write any 10 alphabets in capitals and draw lines of symmetry on A4 size sheet.
- 2) Paste the pictures of any 5 monuments which look symmetrical on A4 size sheet.
- 3) Ink-Blot Patterns: Make any 4 different symmetrical figures. Take a Small piece of paper. Fold it in half. Spill a few drops of color or ink on one half side. Now press the halves together. The resulting figure will be symmetric. Paste 4 slips on A4 size sheet.

TASK2:

Use Lattice Multiplication and solve the puzzle:

Find the value of each icon in the multiplication table below:

		2	
	1		
	3		9
		12	

TASK3: By using old Newspapers, Cardboards make photo frames in different shapes i.e. rectangular, triangular, circular etc. and decorate it by using different materials. Paste the famous visiting places of Gujrat and J&k (at least 4 places from each)
